

Google Sheets and integration

- 1.** To create a project in **Google Cloud Platform (GCP)**
- 2.** To activate **Google Sheets** and **Google Drive** APIs
- 3.** APIs & Services -> To create a **Service Account**
- 4.** To Export the credentials -> **json** file
- 5.** To Share the interested spreadsheets with **Service Account e-mail**

- 6.** Libraries: **gsread** (required) and **pandas** (optional)
- 7.** Now we can interact with **Google Sheets** through **Gspread API**

Thank you!
